NTUE DTD

5 years	HP Taiwan (Contractor)
2019/08 – 2024/12	UI/UX Engineer
2 months	Trend Micro
2018/07 – 2018/08	HIE Summer Intern – Visual Designer
5 months	MicroSoft Taiwan
2018/01 – 2018/06	RDAA Intern

I'm a UI/UX developer that has about six years of experience in software industry, which had been working at HP Inc. for about five years and had two internship experiences at Trend Micro and Microsoft before.

- Experience in coding by using HTML, CSS, JavaScript, and so on.
- Familiarity with Bootstrap and RWD-relevant knowledge.
- Experience in delivering wireframes, mockups, and prototypes by using Sketch, Figma, XD, Principle, and so on.
- Experience in delivering design specifications to communicate with teams smoothly, and strong working knowledge of front-end and back-end integration.
- Strong working knowledge of DevOps adaptation and version control tools with a team by using Git, Azure DevOps Server, and so on.
- Experience in customizing and deploying interactive visualizations with front-end technologies.
- Experience in Scrum methodologies and familiarity with Agile tools.
- Experience in conducting code reviews with peers and code quality maintenance.
